

Billing Information for your Procedure at Hanover Endoscopy Center

You are scheduled to have a procedure performed at the Hanover Endoscopy Center. Please note that the Hanover Endoscopy Center is a **facility** setting, not an office setting. **You need to check with your insurance carrier to determine what your financial responsibility will be.** After your insurance claims have been processed, you **may** receive the following bills:

- A statement from Hanover Endoscopy Center. A deductible, co-pay or co-insurance may apply. Call your insurance carrier to learn your out of pocket responsibility.
- A statement from the physician who performed the procedure. This statement will be from Affiliates in Gastroenterology. **It is the patient's responsibility to know what coverage they have ie, whether or not they have coverage for a screening colonoscopy (routine, no symptom or findings) and what their deductible and co-insurance will be. Call your insurance carrier to learn your out of pocket responsibility before the procedure. Coding cannot be changed after the claim is processed. Should something be found on a routine procedure, it then becomes diagnostic and may be subject to deductible and co-insurance.** With the myriad of health care changes occurring and insurance coverage changing regularly, it is not possible for us to know exactly how your company will handle your claim. We do check that you are covered for the procedure that has been recommended for you, but cannot possibly know anything about the status of your deductible, co-insurance or co-pays. Therefore, if you have significant concerns about the costs we urge you to check with your insurance carrier before scheduling your procedure. We are truly sorry the medical insurance industry has created such an environment for all of us.
- A statement from the laboratory that examined the biopsies, if any were obtained. A deductible may apply. Call your insurance carrier to learn your out of pocket responsibility.
- A statement from the anesthesiologist who administered anesthesia. Call your insurance carrier to learn your out of pocket responsibility. If you receive a statement from Ambulatory Anesthesia Physicians, billing questions should be directed to:

Ambulatory Anesthesia Physicians
PO 48180
Newark, NJ 07101
